

DATA SHEET

Zallys - HT Universal Transporter with Tiller Head

ZALLYS HT

ZALLYS HT - Our 3 wheel electric pedestrian operated tiller head unit is equipped with a sturdy tubular steel frame and powder coated with exterior paint, able to be accessorized with various type of containers, or platforms, easy to be installed and interchanged. Ecological and silent, guarantees speed in all types of stocking and warehousing works.

The HT is designed to be very simple, easy to manoeuvre, and with Its 80° steering angle, while carrying up to 400Kg, is the best solution even in narrow spaces. The swivel tiller head is made with a safety sensor which allows to work only in the presence of assigned personnel.

The motor is equipped with an electromagnetic brake that blocks off the HT preventing accidental slipping while on ramps at full load. HT can work in any kind of internal/external or on uneven ground situation. All Zallys vehicles are produced with high quality materials and are CE certified according to the latest European normative.
