JESPI L is a 4-wheel electric powered vehicle with a load capacity up to 600 kg / 1323 lbs that can be equipped with a large number of load cages and platforms.

It is suitable for the cleaning of large parks and gardens, in the handling of material or goods stocked in pallets, for the luggage or goods transport in airports and stations and for many other work situations.

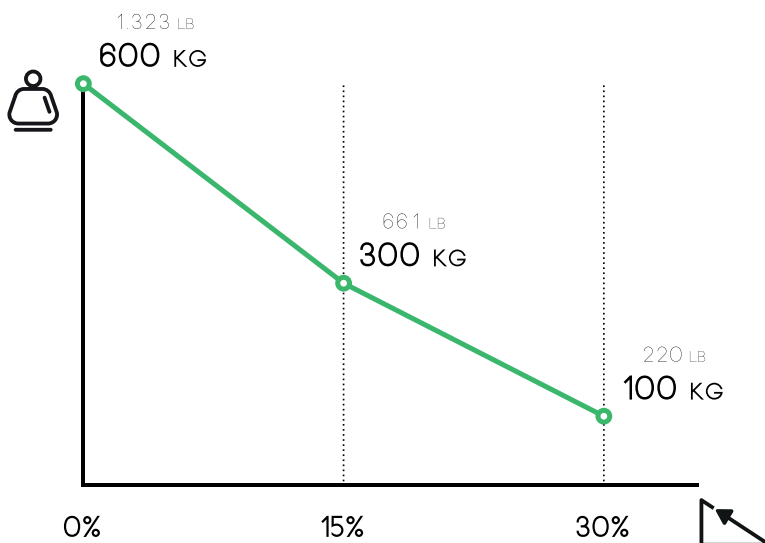

The swivel tiller head is made with a safety sensor which allows to work only in the presence of assigned personnel.

Also available with heavy duty axles to load up to 1000 kg / 2205 lbs.

Our electric vehicles are not only CE certified but, more than 80% of the range is covered by the UL certification, which guarantees its suitability to the standards applicable in relation to potential risk of fire, electric shock and mechanical hazards.
