RANGE MAX T represents a new generation of electric power vehicles projected for a wide range of applications.

No emissions, no vibrations, no engine noise and minimal maintenance, it is suitable for indoor and outdoor tasks respecting the constant quality standards of all Zallys products.

The RANGE MAX T is designed to be very simple, easy to manoeuvre and able to carry up to 400 Kg / 880 lbs, to be the best solution even in narrow spaces.

The swivel tiller head is made with a safety sensor which allows to work only in the presence of assigned personnel.

It is suitable to work in any kind of internal/external or on uneven ground situation.

Our electric vehicles are not only CE certified but, more than 80% of the range is covered by the UL certification, which guarantees its suitability to the standards applicable in relation to potential risk of fire, electric shock and mechanical hazards.
