# DATA SHEET

## Dane - Quickcart

### *DANE QUICKCART*

The all new QuicCART M3 series is the 3rd generation of power cart return systems from Dane Technologies, the original and proven world leader.

The QuicCART M3 increases cart return productivity by over 50% while reducing the risk of injury to employees and guests. This powerful combination of high productivity and increased safety allows stores to recover their investment in five months or less.

### *Benefits*

- Increases productivity, reduces payroll and cart inventory
- Reduces risk of injury
- Improves employee morale, reduces turnover and now anyone can return carts

- 36 volts; three 12 volt deep cycle batteries allows 12 hours use per charge

- 36 volts D.C., 1.25 H.P. continuous duty rating (M3) & H.P. continuous-duty rating (M3 HD) 4 Pole drive motor with burst mode and programmable current control.

- Proven rugged solid-state electronics are "plug and play"

- On board 15 AMP @36VDC (45 Amp @ 12 volt equivalent) series-balanced Smart Charger with automatic shut off, maintenance charge mode and battery life maximiser.

**Efficient**  
one person can easily retrieve up to 30 carts in one trip

**Safe**  
emergency stop buttons on all controls, warning horn, and flashing beacon

**Easy**

controls are intuitive with a cordless remote for easy one-person operation
