Pedestrian operated electric tug mainly designed for towing wheeled loads up to 10.000 kg / 22.046 lbs on flat grounds.

The M10 is equipped with a swivel tiller head that can steer 80°, with a safety sensor which allows to work only in the presence of assigned personnel.

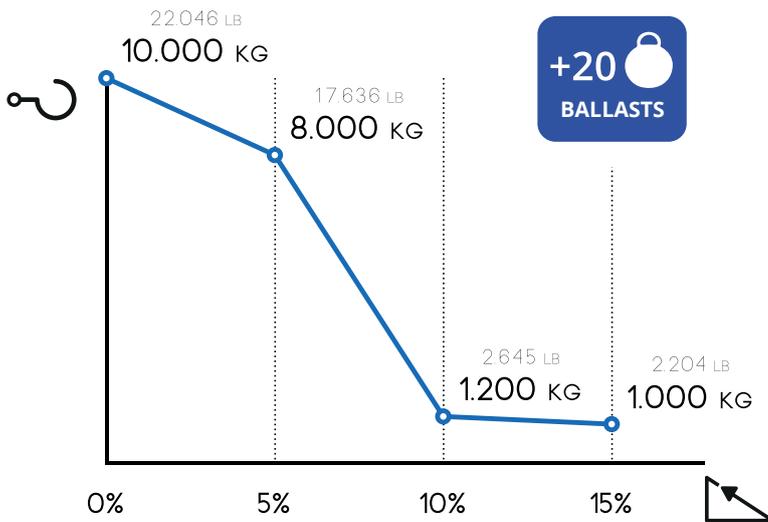

The motor is equipped with an electromagnetic brake that block off the M10 preventing accidental slippery.

The compact size allows modern stage production process methods to be used while creating a safer working environment and preventing injuries.

Our electric vehicles are not only CE certified but, more than 80% of the range is covered by the UL certification, which guarantees its suitability to the standards applicable in relation to potential risk of fire, electric shock and mechanical hazards.
