

WP 85

ADVANTAGES

- Very easy to maneuver
- Silent
- Light self-weight

Extremely compact design makes it very easy to clean.

Easily accessible and removable control unit. Ergonomically positioned to allow control even when both hands on the handlebars.

Dual speed elevation and descent for safer, more efficient control.

The unique positioning of the mast, at the rear of the chassis, distributes the lifting weight evenly over all four wheels.

Charge indicator high - lights battery condition.

Easily accessible charging cable.

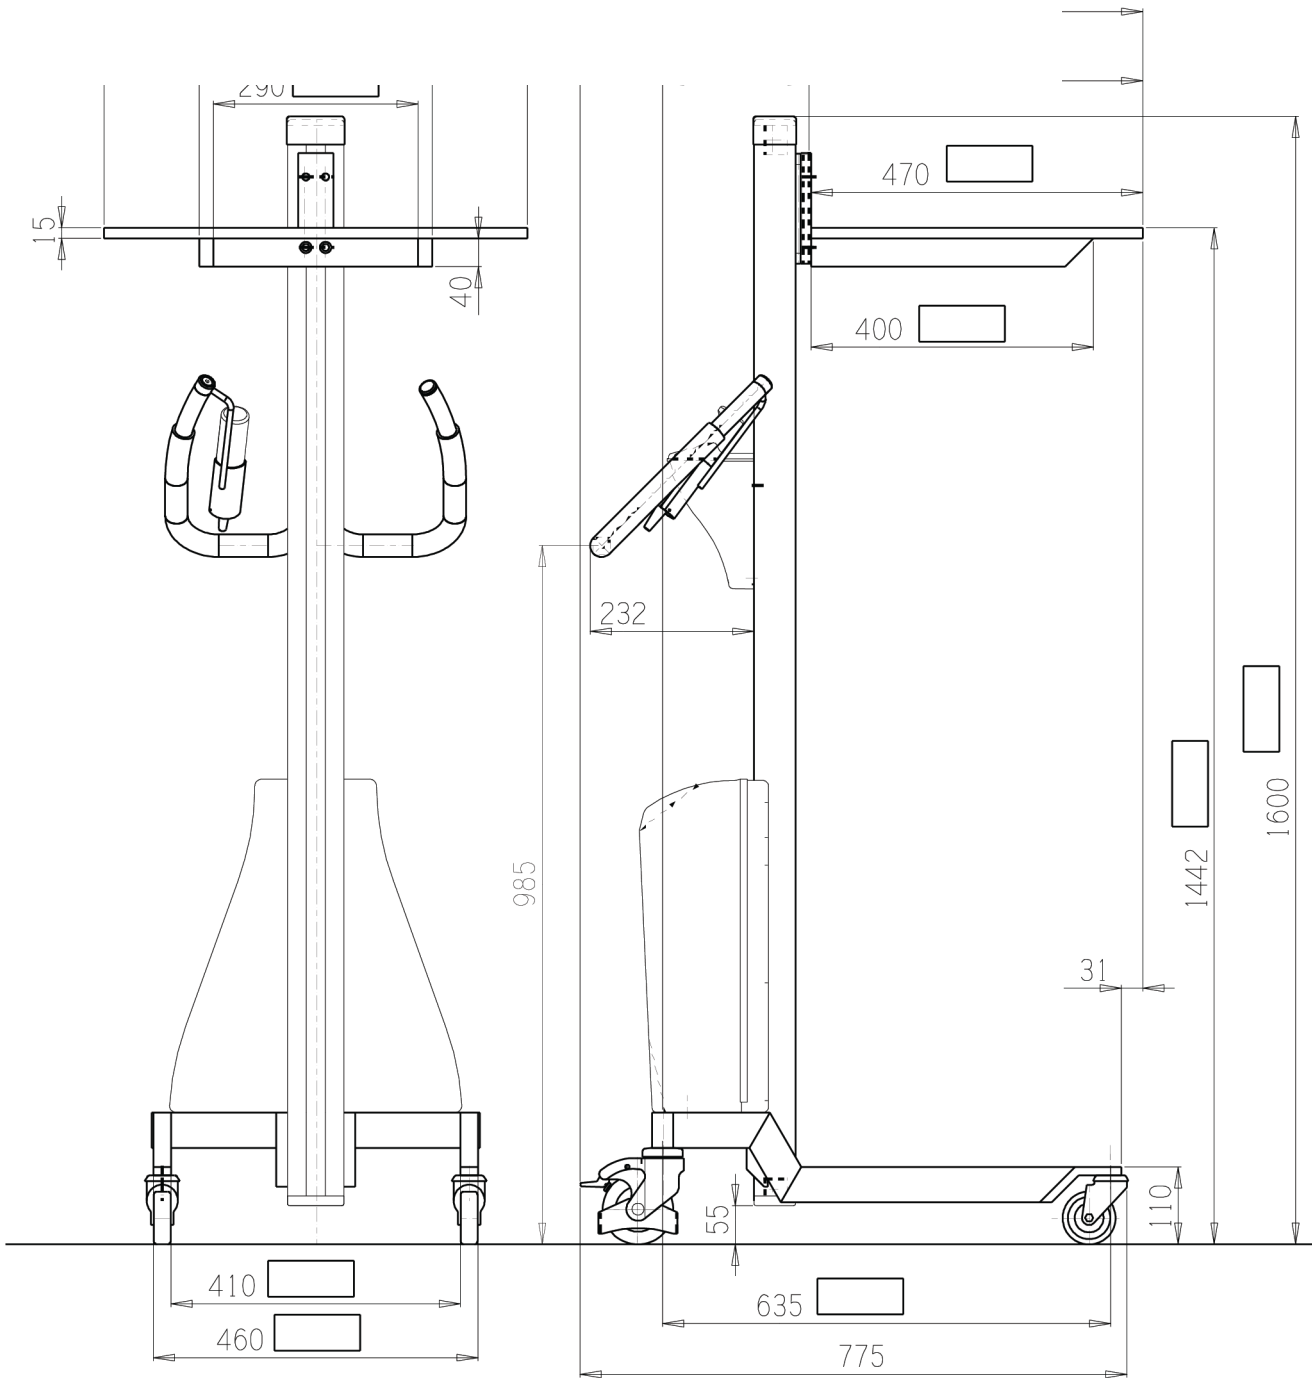

Sealed maintenance free battery with integrated charger. Battery can not be overcharged.

Wheels with ball bearing and toe protection.

High lateral support stabilizes forks and loading levels.

Clamp safety function when lifting down.
