

Powered Wheelie Bin Trolley

Our P2GO unit is designed to easily transport 3 x 240L wheelie bins with a max capacity of 400kg. With an ergonomic design and battery throttle control, it can be easily used on ramps up to 5 degrees.

4 Bin Trailer

Zallys M12 Tow Device can be used with a 4 bin trailer. It has the ability to move 240L or 120L wheelie bins. The platform ramp can be spring assisted or lifted with a gas strut.

6 Bin Trailer

Our six bin trailer holds a capacity of 750kg and can accommodate 6 x 240L wheelie bins. Platform ramps or easy loading platforms are available on all our models.

Custom Solutions

With our customer solutions the possibilities are endless, we pride ourselves on special builds for specific applications. Contact us today!

All designed and made in Australia by innovators since 1976.

M1 - Cart Mover

-  1000KG
-  4.0KM/H
-  15%

Compact, manoeuvrable & light weight tugger

- For loads up to 1000kg
- Space-saving foldable tiller
- Interchangeable battery packs
- Optional slow / fast button
- Unit Weight: 75kg
